Send messages

- You can click send or hit enter on your keyboard to send a message
- We have a character counter at the bottom to let you know how long your message is
 - We recommend that you stay below 160 characters
 - Why? Messages over 160 characters can break into multiple segments, which is not a good experience for the recipient
 - This could also cause your messages to take awhile to send out

Hey Kaela! Great to meet you at orientation earlier, do you have any questions for me? I wanted to let you know that we here in the admissions department are available between 9am-5pm during the week, Monday-Friday, and can be reached at 7033143050. If you catch us outside of business hours, just send me a text here! Because it's texting, and unlike calling I can get back to this text whenever! Whoops sorry for the super long text here I am just so jazzed to use this new tool.

Help

481 / 160 Messages over 160 characters will be sent in multiple segments.

Send messages

- When you go over 160 characters, we'll give you a red warning to indicate that you went over the recommended number of characters
- We don't disable the send button if you go over a certain number of characters, it's our best practices to stay under 160
