

FULL MEASURE
EDUCATION

Inquiry Students

Quick-add

Inquiry Students

You can add new students on the fly from the Full Measure interface.

- This is useful for a variety of reasons
 - If you want to add a student without having to wait for the integration to run
 - Add a student on the fly if needed
 - Add a student to be able to upload them to an audience
 - Add yourself to upload into an audience

Hey I have a question about how to check on my application status

Type your message...

SEND

https://school.fullmeasureed.com/#/add_students/inquiry

Inquiry Students

This will take you to a form where you can fill out your student's information

- This student **must be unique**
- We merge students based on first name, last name, email, and phone number
- **Please** check to make sure that your student does not already exist

ADD INQUIRY STUDENT

Help

Inquiry Students

Use a contact_id on the student that you create to then add them to an audience

- Again, this student **must be unique**
- To create an ID that is totally unique, combine their first name, last name, email, and phone number
- Please do not use any spaces or special characters in any of these fields
 - I.e., do not fill out the form like (555) 555-5101. **Do** 5555555101
- After you create your student, you will be taken to their page
